OBJECTIVE

Motivated B.Tech IT (Hons) student with expertise in **Java, HTML5, CSS3, JavaScript (ES6+), Oracle SQL**, and full-stack development using the **MERN Stack**. Aspiring to secure an entry-level Software Developer position where I can design responsive web interfaces, develop efficient backend systems, and contribute to scalable, high-performance applications.

TECHNICAL SKILLS

- **Languages& Databases:** Java (Core), JavaScript (ES6+), HTML5, CSS3, & Oracle SQL, MySQL, MongoDB.
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Spring Boot.
- **Tools:** VS Code, IntelliJ IDEA, Figma, Git& GitHub.
- **Core Competencies:** OOP, Data Structures & Algorithms (DSA), REST APIs, CRUD.

TECHNICAL PROJECTS

Feedback Application (MERN Stack)

- Architected a full-stack feedback management portal using React.js and Node.js, improving data retrieval efficiency by 15%.
- Engineered a secure backend with Express.js and MongoDB to handle concurrent user inputs seamlessly.
- Implemented RESTful API endpoints to facilitate synchronized, real-time data transmission between frontend and database.

To-Do List Management System (JavaScript/Web)

- Developed a task management application featuring full CRUD functionality and Local Storage API for persistent data.
- Optimized JavaScript DOM manipulation to handle real-time UI updates, reducing interface lag by 20%.
- Applied CSS Flexbox and Grid layouts to ensure 100% mobile responsiveness across all major web browsers.

EDUCATION

- B.Tech - IT (Hons) | CGPA: 8.0 | 2022 – 2026 (Expected) *PB College of Engineering, Anna University*
- HSE (Class XII) | St. Gemma Matric Higher Secondary School | 2022 | 76%

ADDITIONAL INFORMATION

- **Language Proficiency:** English (Professional), Tamil (Native), Hindi (Read & Write).
- **Soft Skills:** Analytical Thinking, Rapid Learning, Collaborative Teamwork.
